

# FREESTANDING ALL WEATHER MULTI- PURPOSE POSTER DISPLAY

Double sided, freestanding display cases and pavement/forecourt signs are the ultimate in versatility.

The posters are easily changable and are protected from the weather at all times.

The Storm Force II has a water fillable base and casters; to move the unit you just tilt the sign to one side and roll it into position. Both of these products have large dampening springs so that the effects of wind is reduced considerably.

Our in house design team can provide a quality service for the realisation of your posters. We are able to print the posters on our wide format external grade printer for use in these units.

If you would like further information or a free consultation about these or any other product just give us a call.
